Bohdan Ly

Front-end Developer

I'm well-organized, self-motivated, resourceful, and able to motivate others, with excellent communication and interpersonal skills. I'm persistent in achieving the final result, ready to do complex work, and learn new technologies/get new knowledge. I've been creating single-page applications using React and JavaScript for a year. I strive to become a successful front-end developer, with my ultimate goal being a great team lead in the future.
